Removing ads from the video

Technical Specifications

- If there is an ad approaching during the playback
- Pop-up should appear with

  Message : "*Next ad in XX seconds*"

  Query : "*Do you wish to skip it*"

  Pre-defined buttons
  - Ok
  - Cancel

'*OK*' will allow the user to skip the upcoming ad in advance, provided he/she has enough credits.

- In case of insufficient credits, user will be taken to accounts window.

'*Cancel*' will keep the user in default mode.

Advance notification of upcoming ad
